LETTER OF TRANSMITTAL.

RALEIGH, N. C., January 1, 1903.

To His Excellency, CHAS. B. AYCOCK,
Governor of North Carolina:

The undersigned Board of Directors of the State's Prison of North Carolina have the honor to submit to you herewith the report of Mr. J. S. Mann, Superintendent of said Prison, for the years 1901 and 1902, with the reports of Dr. Jas. R. Rogers, Physician, and Mr. Jno. M. Fleming, Warden, which give the history of the management of said institution during said years, and show its condition on the 1st day of January, 1903.

The said reports have been approved by this Board, and it concurs in the recommendations made in the report of the Superintendent.

E. L. TRAVIS, *Chairman.*

BIENNIAL REPORT

OF

THE STATE'S PRISON,

FOR THE YEARS 1901 AND 1902.

REPORT OF THE SUPERINTENDENT.

RALEIGH, N. C., January 1, 1903.

To the Honorable, the Board of Directors of the State's Prison:

The present management formally took charge of the Prison on April 3, 1901. An immediate investigation was made into its condition, financial and otherwise, and a careful inventory was taken of all property on hand. We found, in cash and in other assets subsequently converted into cash, the sum of $53,877.80. We have paid on debts contracted by the preceding administration the sum of $33,262.69, leaving a net balance chargeable to us of $20,615.11. Having paid all bills for supplies purchased during the month of December just passed, there is to-day absolutely no indebtedness against the Prison, and we have in the treasury a cash balance of $23,994.23, or $3,379.69 more than the net balance received from our predecessors. We have on hand solvent credits, products of the State farm over and above the necessary supplies for the year 1903, and other cash assets, to the amount of $36,905.36, which, added to the $3,379.12, and making $40,284.48, constitutes our surplus of earnings over expenditures to January 1, 1903. No appropriation for the Prison was made by the last Legislature, and I am of the opinion that it can be maintained for the next two years without assistance from the State.

In making up this account, we have followed the precedent

of the former administration and left entirely out of consideration such farm products as will be required for the use of the farm during the present year. Absolutely no valuation has been placed upon any article which is not expected to be sold and converted into cash. In another particular we have advanced a step further, and present no separate account for permanent improvements, notwithstanding a number of expenditures which precedent, at least, would justify our charging to such an account. We have expended two hundred and fifty-one dollars in the improvement of the administration building, shingled the prisoners' dining room and one of the buildings formerly constituting a part of the Prison, and partially covered the other; both large stock barns at the farm have been thoroughly rebuilt and newly brick underpinned; at both camps, large, roomy shelters have been erected for the protection of the farm implements and machinery; two barns at Camp No. 1 have been practically rebuilt, and a third newly shingled; at Camp No. 2, the dwelling has been partially recovered and an addition built; a new modern gin plant has been erected on the site of the old peanut factory, and two gins and presses installed; the gins are the latest improved Munger system, and the outfit, including repairs to the engine, cost $3,181.21; $8,009.63 were expended in implements and labor during the summer and fall of 1901, in rebuilding and repairing the dike on the farm, which was broken by the floods in May preceding; ten fine mules have been purchased for the farm, at a cost of fifteen hundred dollars; a large quantity of agricultural implements and improved farm machinery, including a gasoline engine and a corn harvester and shredder for each camp, have also been purchased; we have paid $2,587.72 to the owners of the Anson County farm for a release from that contract; we have paid the State Treasurer six thousand dollars interest on bonds issued for the purchase of the State farm, and refunded to the State $1,216.61 paid for the recapture of escaped convicts. All of these expenditures,

and others of a similar character, have been charged against us in our account for current expenses.

POPULATION.

The population of the Prison is gradually diminishing. In 1894, the average number of convicts was 1,234; in 1896, 1,198; in 1898, 1,091; in 1900, 860; during the present year, 819. The reason of this is easily understood. Many of the large counties are now engaged in road building, and use their convicts upon this work. Not only is this true, but the strong and robust convicts from neighboring counties, by order of the presiding Judge, are usually sent to re-enforce these county chain gangs, while the females and the weak, feeble and maimed are sent here to become a burden upon the resources of the Prison. I am an advocate of good roads and road building, but think this policy is unfair and unjust to the Prison management. Every county that wishes to do so, should be permitted to use its own criminals, but it should retain them all, except such as are sentenced for life or for a long term of years. Convicts from those counties that do not maintain a chain gang should be sent to the Prison so long as the Constitution requires the Prison to be as nearly self-supporting as possible, and the public expects it to be entirely so. I can see no difference in permitting a county to demand and receive the convicts of a neighboring county, and permitting it to demand from the management of the Prison, without cost, all the convicts it may need—either the one should be prohibited or the other allowed—and if the latter is permitted, the logical and inevitable result will be the maintenance of the Prison by State appropriation.

There is still another injustice in the present plan: The retention of the strong and robust convicts in the counties and the sending of the weak, sick and enfeebled to the Prison necessarily increases the death rate; consequently a comparison of this institution with similar institutions in other

States creates a wrong impression and reflects upon the management.

ANSON COUNTY FARM.

In December, 1901, a compromise was made with the owners of the Anson County farm, whereby the lease held by the Prison was surrendered to the lessors upon the payment to them of $2,587.72, in addition to the rent due for the year 1901. This sum, the equivalent of one year's rent under the lease, has been paid by us out of the earnings of the Prison, but under no circumstances should be considered a liability of this administration. We paid it simply as the best means of ridding the Prison of an unfortunate contract made by a previous management. The lease lacked four years of expiring, and the records show that the greater the effort to secure a profit from the farm, the greater was the loss sustained. I believe the compromise will save the State at least five thousand dollars.

TILLERY FARM.

On December 31, 1901, the lease held by the Prison on the Tillery farm, in Halifax County, expired, and it was decided not to enter into a renewal. This was the last of the many farm leases to which the Prison has been a party, and some of which, to say the least, have been a source of irritation and annoyance.

SHIRT FACTORY.

At the beginning of the present administration, a shirt factory was in operation at the Central Prison. This, by agreement with the contractors, was discontinued during the summer of 1901. The enterprise was found to be unprofitable, and, consequently, unsatisfactory.

BRICKMAKING.

During the fall and winter of 1901 there seemed but little demand for brick, and as there was a considerable supply on

hand, we discontinued brick making in order that the hands so engaged might be sent to the farm and on contract work. The wisdom of this action is shown from the fact that we still have on hand a million of brick, while the hands who would have been engaged at the brickyard have been bringing us a steady income. Brickmaking, however, will be resumed whenever our supply has been exhausted and the demand justifies it.

REWARDS.

In a recent opinion, the Attorney-General has held that the Prison should pay all rewards offered for the recapture of escaped convicts, and the expense of their return, and in accordance with this opinion we have refunded to the State from our earnings $1,216.61, the amount paid on this account for the last two years. No other administration has ever been charged with such an expenditure, but has received this assistance from the State in addition to whatever appropriation was made by the Legislature for its support.

CALEDONIA FARM.

The present farming operations of the Prison are confined to Caledonia, the State farm. In May, 1901, the dike on this farm was almost destroyed by a river freshet. The first and principal break was at the upper end, just below Bull Hill Ferry. The torrent of water rushing in at this point soon filled the farm and broke the dike all along the lower end. About two hundred acres of fine lowland was covered with sand from one to four feet in depth, destroying its fertility. Nearly all the remaining lowlands were badly washed and greatly damaged. Crops were growing on all these lands. The soil had been carefully and thoroughly prepared, the ditches put in order, and under the cotton and peanuts commercial fertilizer had been used. The corn was young, but promising, and a magnificent wheat crop was nearing maturity. All the crops in the low ground, and what is known

as the second low ground, and in the bottoms and ravines, were totally destroyed, and the canals and ditches filled to the level of the surrounding lands. You gentlemen will recall that during the visit of inspection made by you at my request, the damages were estimated, after a careful investigation, at thirty thousand dollars. Much of the land was again planted, but only to be destroyed by a second freshet. After due consideration, it was decided to rebuild the dikes, and the work was begun in August and continued with some interruptions until practically completed. Under the advice of a skillful engineer, the main break was rebuilt, with a base at least one-third larger than the old dike, and the dirt had been thoroughly packed in place. The dike on the lower end of the farm had been completed. More than eight thousand dollars in labor and implements had been expended upon the work. On January 1st, a third freshet swept away almost the entire new work at the main break and an adjoining section of the old embankment, and damaged the dike along the lower end of the farm to even a greater extent than the May freshet. Small breaks were made, but considerable damage done the main dike at other points. We have been unable to repair the damage a second time, but hope to begin the work during the present year. Until the dikes are restored, the lowlands of the farm can not be cultivated with any assurance of maturing a crop, and, indeed, a large section of them can not be cultivated at all for lack of drainage. With the exception of the lowlands, however, the farm is in excellent condition. It is well stocked with a good team and with improved farming implements and machinery, and the buildings at both camps are in good repair. The team is in fine condition, and there is an abundant supply of corn, hay and fodder on hand for the next twelve months, in addition to that enumerated among the cash assets of the Prison. The health of the prisoners at the farm has been remarkably good for the past two years. This is peculiarly gratifying in view

of the policy adopted of retaining the disabled and incurable at the Prison and sending the weak and feeble prisoners to the farm, with instructions that they be given such light outdoor and open air work as their physical condition will permit—a policy which, in my judgment, is most humane.

In January, 1901, another severe misfortune befell us. The peanut factory, situated upon the farm and then in use as a cotton gin, was destroyed by fire. The gins and other machinery, together with eighty-six bales of cotton and three thousand bushels of peanuts, which were stored in a nearby building, were also burned. The loss was total. The fire was discovered about one o'clock at night, and when first seen had gained such headway as to be beyond control. In the afternoon of the day previous a wire in the seed cotton passed into one of the gins, and upon coming in contact with one of the saws, ignited the cotton. This fire, however, was easily extinguished, and several bales of cotton afterwards ginned, and upon closing down the machinery at night everything seemed in perfect order. There must, however, have been a spark left smouldering, possibly in the dust heap, which later caused the destruction. This, at least, is the most reasonable theory that an investigation has suggested.

The principal buildings and their contents at both farm camps are now insured for the next two years, the premium on which has been paid in full. The amount of insurance is $15,000 on boilers and $42,575 on other property.

In August, a new gin plant was erected on the site of the peanut factory. This plant consists of a gin house, cotton house and seed house. Two new steam presses and two new huller gins of the Munger system have been installed. The plant is said to be one of the finest in the State, and has been doing excellent work during the present season.

CONTRACTS.

During the past year the earnings of the Prison have been derived in a large measure from contracts. About sixty per

cent (60) of the convicts have been employed in contract work. This furnishes a certain, definite return each month, which is available for current expenses. I am persuaded it is a correct policy to divide the Prison labor between the farm and contracts. In farm work, much labor can be used that is totally unfit for contract work. And as there is a scarcity of free labor, it seems to me to be just and proper that those engaged in large enterprises in the State should have the benefit, as far as possible, of the Prison labor, when at the same time the State receives an adequate return therefor. There is absolutely no system of subletting. The convicts are at all times entirely under the immediate care and management of the Prison officials. We feed, clothe, guard, and in all respects maintain them, and are responsible for them. Every precaution is taken to prevent abuse or ill use, and I am sure there has not been one instance of such during this administration. No punishment is ever inflicted except by direct order of a supervisor and in his presence, and is altogether infrequent. Wherever inflicted, an immediate report of the same must be made to the Superintendent.

A complete and accurate record is kept of everything furnished each camp, as well as the farm and the Central Prison, and this affords indisputable evidence that an abundant supply of provisions, clothing and other necessaries of life have been provided.

RELIGIOUS SERVICES.

By virtue of section 3446, volume 2, of The Code, our predecessors have drawn annually from the Treasury, in addition to other appropriations, the sum of five hundred dollars, with which to provide religious services for the convicts. At the beginning of the present administration, Treasurer Lacy, by advice of the Attorney-General, declined to place this at our disposal. Religious services have, nevertheless, been held at the Prison with as much regularity as ever, the only difference being that in the past the good people who attended to

this work received some compensation for their services, while now they receive but a nominal sum, although they do the work as willingly and cheerfully as in the past. Sunday School is held at the Prison every Sunday under the same competent and devout management that has existed for years past. The Presbyterian, Methodist, Episcopal and Baptist denominations of the city alternate in holding church services. At the farm an arrangement was made by which church services were to be held twice a month. For the various camps we have been able to make no provisions other than to invite ministers in good standing of any church to visit and preach to the convicts whenever convenient.

Glancing back over the work of the past two years, it must be admitted that we have met with a number of serious misfortunes and setbacks, and been laden with unusual and heavy burdens. It is noteworthy, too, that we have been compelled to purchase supplies at the highest range of prices for many years past. Our largest monthly expenditure has been for meat, which for the past twelve months has averaged more than ten and a half cents per pound—almost twice as much as the same article cost our immediate predecessors. Meal, too, has been higher than for many years previous, and has ranged near the dollar mark. These things should be duly considered in examining the result of our labors.

The employees of the different camps, upon the farm, and at the Central Prison, have been zealous, faithful and efficient, and each has seemed to feel a personal interest in the proper and successful management of the institution, and for this I desire to express my appreciation and gratitude.

And now to you, gentlemen of the Board, I return my sincere thanks, not only for your confidence, but also for your generous aid and assistance. My thanks would indeed be but a poor return, but I feel that you will be better paid by a due appreciation of the people of the State for your patriotic services.

Respectfully submitted, J. S. MANN.

RALEIGH, N. C., January 1, 1903.

To the Honorable, the Board of Directors of the State's Prison:

The Dangerous Insane Department of the State's Prison, at the beginning of the present administration, was placed under the care and supervision of Dr. James R. Rogers, who is also physician to the Prison. He will make to you a report of its condition and its needs, as well as of his official acts. The department has been maintained within the appropriation granted for this purpose. A similar appropriation will be needed for the next two years, and will, I think, be sufficient.

The present law regulating the admission and discharge of inmates is inadequate. A number of them have been admitted under sentence for a definite, fixed period, and if at its termination they are still insane, and should be even more dangerous than at present, I know of no authority of law by which we could hold them longer. On the other hand, there seems to be no authority given us for the discharge of those sent here by order of the Courts for an indefinite period, and who have since been pronounced cured by the attending physician. Two of this class have been recently released under *habeas corpus* proceedings, and there are four others still in confinement whom the physician says could be safely discharged. Their names are given in his report.

The three thousand dollars appropriated by the last Legislature for improvements in the building have been expended as economically as possible, and in making such alterations as were suggested by Dr. Rogers and the Advisory Board, consisting of the superintendents of the three State Hospitals for the insane. This appropriation was not sufficient to complete the plan of improvements deemed necessary, and notwithstanding five hundred dollars of the maintenance

fund was used to complete work already begun, there are still several recommendations that have been untouched. If the department is to remain a part of this institution for the next two years, it will be necessary to increase the facilities for heating, which are now inadequate. By the expenditure of a thousand dollars, additional radiation can be added to that already in use and a sufficient amount of heat obtained. I can not and do not advise the further expenditure of public funds for the purpose of making this a permanent department of the Prison. I can not think this a proper place for the confinement of these unfortunate people. The acts of an insane man can never make him a criminal; if a criminal becomes insane, he is at least entitled to a suspension of punishment during his affliction; and in neither instance is confinement in the State's Prison either just or humane. Are these people too dangerous to be cared for among the patients of other hospitals? If so, let them be cared for in a separate building; or, if need be, in a separate and distinct institution, but let it be outside of *prison* walls. I believe a healthy public sentiment will demand and eventually secure its removal. Can it be consistently said that now, during an era of acknowledged prosperity among the people of the State, the State itself is too poor to do simple justice by its most unfortunate class of citizens?

Respectfully submitted,

J. S. MANN.

REPORT OF THE WARDEN.

RALEIGH, N. C., December 31, 1902.

HON. J. S. MANN, *Superintendent, Raleigh, N. C.*

SIR:—As Warden of the State's Prison, I beg to submit the following report for the two years ending December 31, 1902:

The discipline of the Prison is good, and there has been no outbreak against authority. The prisoners have been very cheerful and industrious, promptly performing the work assigned them. There are quite a number of young criminals, who might, very advantageously, be separated from the older and more hardened.

The work in the machine shop has been confined entirely to repairs; the steam pipes in the building being old, require constant attention. The laundry machinery, also, is old and almost worn out.

Religious services are held every Sabbath—the Christian Endeavor from 9:30 to 11:30; the regular Sabbath School from 2 to 3, by several of the very best men of the city; and in addition to these services, the ministers of the four principal denominations of the city—Presbyterian, Episcopalian, Baptist and Methodist—hold religious services every Sabbath afternoon from 3 to 4 o'clock. All these services are attended and enjoyed by the convicts.

There is now in bank $250.50, less $18.28 paid for Sabbath School quarterlies and song books, to the credit of the Sabbath School and library fund. Of this amount, $50 was drawn from the Treasury, the remainder collected from persons visiting the Prison.

Our garden, outside the Prison walls, worked by convicts who are not otherwise employed, and are generally useless for hard labor, yields sufficient vegetables for several months' supply, and is very valuable to the Prison.

Respectfully submitted, JOHN M. FLEMING,
Warden.

REPORT OF PHYSICIAN.

To the Superintendent and Honorable Board of Directors of the North Carolina State's Prison.

GENTLEMEN:—In making my biennial report of the Medical Department of the State's Prison, the tabulated reports below will show, in a condensed form, the vast and constant amount of work done. We have been fortunate in that we have had a less number of accidents, fewer serious surgical operations, less tendency to epidemics, and a higher standard of general health.

It is my understanding that the counties, with few exceptions, send their weak and infirm to the State's Prison, but retain the strong and robust to work on the county roads. This seems evident, since the books at the Prison show that twenty-nine per cent (29) are unsound on examination when admitted. This is unjust to the management, and if kept up will greatly increase the death rate.

The Superintendent has very properly, in my judgment, ordered all the disabled, chronic and incurable returned from the camps and farms to the Central Prison hospital for care and medical attention. This fact will certainly increase the death rate, but give to the poor and unfortunate prisoner more comfortable hospital quarters, a greater variety of well-selected and cooked foods, and in many cases a promise of a new lease on life. With the consent of the Superintendent and Board of Directors, we have set aside separate apartments in the hospital for the tubercular subjects and contagious diseases of all kinds. These patients are required to sleep, eat and exercise in squads to themselves, and in this way they do not come in contact with the otherwise sick but curable cases which may be confined in the hospital at the same time.

We have several times during the year had chemical and

bacteriological examinations of the drinking water used in the Prison, and in every instance it has been free from impurities of all kinds. The yards and cells have been exceptionally clean, and the sanitary condition excellent in every particular.

The number admitted, 580; examined, 533; sound, 412; unsound, 121; sent to farms, etc., without examination, 47.

The following are the principal diseases treated during the two years ending December 31, 1902, including deaths and births; also reports of physicians in charge of camps and farms:

JAMES R. ROGERS, M.D.,
Prison Physician.

PHYSICIAN'S REPORT OF THE MOUNTAIN CAMPS.

I have the honor to submit a tabulated synopsis of my report for the year ending November 30, 1902, of the two camps on the S. and W. Railway, in Mitchell County.

I would say in regard to the sanitary conditions of the camps that they have been good, with but very few exceptions. The most unfavorable thing about the camps is their location, near the brink of the Toe River, where they are exposed to the winter gales and have but little sunshine during the winter season. The condition for drainage has been very good. The water supply most of the time has been obtained from springs and small streams from pure sources. The prevalence of pneumonia at Lashley's camp in January and February was due to an epidemic of influenza.

Yours truly, F. H. GILREATH,
Physician in Charge.

The number of these women is 32. They have been at this camp over six months. There has been no death among them during that time.

Yours very truly,

F. M. REGISTER,
Physician in Charge.

NORTH WILKESBORO, N. C., December 13, 1902.

DR. JAMES R. ROGERS, *Prison Physician, Raleigh, N. C.*

DEAR SIR:—I hand you herewith my report of the sanitary condition of convict camp near North Wilkesboro.

The sanitary condition of cell blocks and camp, as a whole, is good. Sickness has mostly been of a minor character, with only one death, of apoplexy. The camp is supplied with excellent drinking water.

Respectfully submitted,

GEO. DOUGHTON, M.D.,
Physician in Charge.

PHYSICIAN'S REPORT OF SANITARY CONDITIONS AT DOVER CONVICT CAMP.

There has been one broken rib, a broken clavicle, and dislocation at left second metatarso-phalangeal joint. An epidemic of parotitis and of dysentery has visited the camp. Malarial fever has prevailed all along. There have been light attacks of diarrhœa. At one time there was a dozen of the men suffering from stomatitis, not necessitating any loss of time, however. There has been no death from disease, and the sanitary condition of the camp is good.

Emanuel Hartness was killed August 26, 1901, in attempting to escape. Bud Wright was killed accidentally January 29, 1902. Henry Hardee was killed by guard while attempting to escape November 20, 1902.

The men at this camp are in a good, healthy looking condition.

Most respectfully,

RAYMOND POLLOCK,
Physician in Charge.

REPORT OF SUPERINTENDENT STATE HOSPITAL FOR DANGEROUS INSANE.

RALEIGH, N. C., December 31, 1902.

To the Honorable Board of Directors:

The Superintendent presents the following report to December 31, 1902:

In this (his first) biennial report will be included a brief account of the events surrounding the establishment of the present management, with the chapter (755) of the Public Laws of the Session of 1901, enacted by the General Assembly of North Carolina, viz.:

"*The General Assembly of North Carolina do enact:*

"SECTION 1. That the Hospital for the Dangerous Insane is hereby created a corporation under the name of the State Hospital for the Dangerous Insane, and shall be under the direction and management of the Board of Directors of the State's Prison, which shall be *ex officio* the Board of Directors of the said corporation, which Board shall, in its name, have power to receive, hold and manage all such property or estate as may be hereafter given to, or otherwise acquired by the said corporation, and shall have the same control and direction of the affairs of the said corporation as is given by law to the Board of Directors of other State Hospitals. The said Hospital shall be located in the State's Prison, where the dangerous insane are now cared for and treated, in which Hospital shall be admitted, cared for and treated, the dangerous insane, as now provided by law.

"SEC. 2. That Section 62 of Chapter 1, of the Public Laws of 1899, is hereby repealed.

"SEC. 3. It shall be the duty of the Board of Directors of said corporation, as soon as practicable, by partitions, walls and otherwise, to fully and completely separate the said Hospital from said Prison, and they shall change the same so as to conform to the purpose of a hospital for the insane. They shall advise with the Superintendents of the three Hospitals for the Insane before making such changes as to what is necessary for the safety, comfort and welfare of the patients. It shall be the duty of the Board of Directors of the State's Prison to furnish to the said Hospital all labor free of charge, and all material at cost, necessary for building said walls and partitions,

and for placing the said wards and apartments herein referred to in a proper condition; and the said Hospital shall not be a part of the State's Prison, but shall be the State Hospital for the Dangerous Insane. That the Board of Directors of the State's Prison is hereby directed and required to furnish to the Hospital heat, lights and water at cost, and do all things proper and necessary for the comfort, maintenance and humane treatment of said dangerous insane herein committed to its care. In said Hospital the sexes and races shall be kept in separate wards and apartments.

"SEC. 4. The Board of Directors of the State Hospital for the Dangerous Insane shall appoint a skilled physician, educated to his profession, of good moral character, of prompt business habits and of kindly disposition, to have charge of the insane committed to its care. He shall be required to perform the duties of physician to each of said institutions, and shall be paid from the funds belonging to the said institutions respectively such amount as shall be prescribed and agreed upon by the Board of Directors. He shall hold his office for four years, unless sooner removed by the said Board, which may, for infidelity to his trust, gross immorality or incompetence to discharge the duties of his office, fully proved and declared, the proof recorded in the book of their proceedings, remove him and appoint another in his place.

"SEC. 5. The said physician shall have the same powers and perform the same duties as the Superintendents of the other State Hospitals, and such additional duties as may be prescribed by the Board of Directors, and in addition thereto, he shall make a special study of penology, and crime in all its aspects, and shall make special biennial reports thereof to the Board of Directors for transmission to the Governor and the General Assembly. The said Board is hereby authorized to buy such books on these subjects as may be necessary; the books to be the property of the Hospital. It shall be the duty of the Superintendents of the other State Hospitals to visit the Hospital for the Dangerous Insane from time to time, and at least once a year each, for consultation and advice, and they shall report to the Board of Directors of the said Hospital with such suggestions as they may deem proper and best for the government thereof, and for the treatment of the patients, but their powers shall be advisory only. They shall be allowed only their traveling expenses, to be paid by their respective institutions.

"SEC. 6. That Chapter 1, of the Public Laws of 1899, shall, as far as practicable, be applicable to, and shall regulate the government of the State Hospital for the Dangerous Insane, when not inconsistent with the provisions of this act, except that there shall be elected only such assistants and other officers as the said Board of Directors may think proper.

"SEC. 7. That the sum of $5,000.00 is hereby appropriated annually for the support and maintenance of the State Hospital for the Dangerous Insane, and the sum of three thousand dollars ($3,000.00) is hereby appropriated for the purpose of carrying the provisions of this Act into effect.

"SEC. 8. This Act shall be in force from and after its ratification.

"In the General Assembly read three times, and ratified this the 15th day of March, A. D. 1901."

By section 1 of the above act the State Hospital for the Dangerous Insane was created a corporation under the direction and management of the Board of Directors of the State's Prison, at Raleigh. Since 1897, the dangerous insane of the State had been under the care of the staff of the State Hospital at Raleigh, and the west end of the State's Prison building—that portion at present accommodating the dangerous insane—had been made use of as the Hospital for the Dangerous Insane. With events transpiring since my accession as Superintendent, April 15, 1901, this report deals.

As authorized by the Act of 1901 (*vide supra*), the west wing of the State's Prison was completely separated from the Prison, materials for building walls and partition being furnished at cost by the Board of Directors of the State's Prison, and convict labor being employed. By August 1st, this work was practically completed, and the Hospital lighted and furnished with water and heat from the State's Prison at cost.

The disposition of the space furnished by the four-story wing was as follows: On the ground floor was located the colored male ward and apartments, the kitchen, dining and store rooms. Underneath the kitchen and dining room, a storage room was provided. On the second floor was provided an office and apartment for steward, and a white male ward. The third floor was given up entirely to ward and apartments for white male patients. On the fourth floor, wards and apartments for white and colored female patients were provided, a thin temporary board partition separating

the races. A separate temporary apartment was also furnished for the female attendant on the fourth floor. For want of space, a separate dining room for the colored race could not be provided. A portion of the colored male ward adjoining the kitchen is made use of for this purpose, so that the races are in no way associated. Meals are served to female patients in their ward also.

The following by-laws, regulations and instructions, designed by the Superintendent and approved by the Board of Directors May 3, 1901, were printed in neat pamphlet form for the aid and enlightenment of all connected with the institution. Each attendant is furnished with a copy:

BY-LAWS.

The following instructions, approved by the Board of Directors, May 3, 1901, are designed by the Superintendent to help attendants who are willing to be taught.

It is hoped that each attendants will make himself familiar with the spirit as well as the letter of these teachings, and that his own good sense and sympathy for the afflicted will not allow him to go wrong in any emergency not covered by these rules.

This pamphlet is to be returned to the Superintendent when the attendant leaves the service of the Hospital:

BOARD OF DIRECTORS.

1. A regular meeting of the Board of Directors shall be held in the city of Raleigh annually, on the first Wednesday in May, but other meetings may be held at such stated times as may be agreed upon, and a meeting may at any time be called by the Chairman, and must be called at the request of two members of the Board, or of the Superintendent and one member of the Board. Three members of the Board shall constitute a quorum.

2. All questions for consideration of the Board shall be submitted in writing and decided by a majority of the members present.

3. The Board of Directors shall at each annual meeting appoint an Executive Committee, which shall consist of two members of the Board and the Superintendent of the Hospital, and shall serve for one year. So far as such course may be deemed expedient, the members of this committee shall be such members of the Board as may be resident nearest to the city of Raleigh, or resident at such place or places as will enable them most readily to come to Raleigh. Two members of this commmittee shall constitute a quorum.

4. The Executive Committee shall, in the absence of the Board of Directors, be the advising body with whom the Superintendent shall confer in regard to the business of the institution, and they shall be clothed with full power to do all acts necessary for the proper conduct and management of the institution, except in such cases as the law requires the action of the full Board, or when prevented by a special order of the Board, and they shall meet bi-monthly at the Hospital, or at such place in Raleigh as may be agreed upon, for the transaction of business within the scope of their duties. On these occasions it shall be their special duty to examine the books and audit the accounts of the Steward for the expenditures of the preceding months, and order such expenditures as may be needed for the ensuing months on the requisitions of the Superintendent; and they shall report in writing at the regular meetings of the Board upon the general condition of the Hospital, and recommend such modifications of existing regulations as they may deem expedient, and shall also report the amount of the outstanding indebtedness of the institution. The Executive Committee shall report all their proceedings separate from the minutes of the proceedings of the Board of Directors, which shall at all times be open for the inspection of any member of the Board of Directors. The Superintendent shall be Secretary to the Executive Committee, and the Chairman or Secretary of the Executive Committee shall have power to call the committee together in special session whenever he shall be of opinion that the good of the institution so demands.

DUTIES OF THE SUPERINTENDENT.

1. The Superintendent shall devote so much of his time as is necessary for the proper care and welfare of the institution. He is the chief executive officer under the Directors of the institution, and all officers and employes shall receive their instruction from him.

2. And it shall be his duty to see that all officers and employes of the institution are energetic, industrious, punctual, exact, and in all respects faithful in the performance of their several duties, as prescribed in these by-laws.

3. He shall direct such medical, moral and physical treatment as in his judgment will be conducive to the comfort and amelioration, or best adapted to the relief of the patients, and shall conduct the correspondence of the institution, and make report of same to the Board of Directors.

4. There shall be kept by the Superintendent a well-bound book, to be styled the "Patient Book," in which shall be set out in intelligible form, under the name of each patient in the Hospital, his or her age, social condition, residence, and name of nearest relative, nationality, name of Judge sentencing, the character of the mental disease,

the supposed cause of disease, the duration of such affliction, when received, when discharged or removed, whether cured or improved, whether dead; if dead, the cause or supposed cause of death, and any and all striking features and incidents of such patient's case, for the use and benefit of the Hospital and of medical science.

5. At each bi-monthly meeting of the Executive Committee he shall exhibit all the records of the institution; if required, its general state, the names of persons received or removed, with such remarks and suggestions as he may deem useful; at the December meeting of the Board furnish a tabular view of the condition of the institution for the preceding year, deduced from the records, with a list of the patients who have been subjected to mechanical restraint, its duration, character and cause.

6. He shall give all persons employed in the Hospital such instructions as are best adapted to carry into effect all the rules and regulations of the institution, and he shall see that these rules and regulations are strictly and faithfully observed and executed. Subject to the instructions of the Board of Directors, and, in their absence, of the Executive Committee, he shall determine what attendants and other assistants are necessary.

7. All records, papers, memorials, important letters, minutes of proceedings, vouchers, reports, and other papers and books pertaining to the Hospital shall be carefully arranged and labelled and filed away in the business office of the Hospital.

8. In the course of their business the Superintendent shall, at all times, have access to all the wards and apartments of the Hospital; but no other officer or employe shall, at any time, enter the female department, or any ward or apartment therein, except by the permission or instruction of the Superintendent, and then in the presence of the female attendant; nor shall the female employe enter the male department, or any ward or apartment therein, except by like permission or instruction.

STEWARD AND CHIEF ATTENDANT—HIS DUTIES.

1. He shall keep an accurate account of all purchases, and of moneys expended by him, both on account of the patients, and also for the institution. He shall take receipts for all articles delivered to him for the supply of the table or household, and file them subject to the bi-monthly examination of the Executive Committee.

2. He shall exhibit through the Superintendent his vouchers, books and accounts to the Executive Committee at their bi-monthly meetings.

3. He shall constantly observe the conduct of all persons employed in subordinate positions, see that they do their duty, and report to the Superintendent any instance of neglect or misconduct he may see, or of which he may be informed.

4. Under direction of the Superintendent, he shall make purchases, attend to buildings, and see that they are kept in order.

5. He shall assist in maintaining the police of the establishment; shall see to the opening and closing of the house, and that the attendants and servants rise and commence their business at the ringing of the bell, and retire at proper season at night; that the warmth, cleanliness and ventilation of the house are attended to.

6. He shall, when directed by the Superintendent, receive visitors, give them all suitable information, and accompany them to such parts of the building as are open for examination.

7. He shall always be present when food or medicine is administered coercively to patients, when restraint is applied, and when they take their baths. He shall keep a faithful list or record of their clothes, and also frequently pass through the different wards, aiding and encouraging the attendants in their efforts to amuse or employ such patients; and in every way endeavor to promote the good order and discipline of the Hospital by seeing that the Superintendent's instructions in reference to occupation, exercise and clothing are faithfully and properly fulfilled, and by guarding against disturbances, escapes, suicides, exposures, etc.

8. He shall see that the clothing, etc., is taken care of, and for this purpose shall provide himself a book in which he shall open an account with each attendant who has charge of a ward, and crediting him with all that is destroyed by the patients, condemned, or otherwise properly accounted for. Whenever an article is missing, he will institute an immediate investigation, and if it can not be properly accounted for by the attendant in whose charge it was placed, he will report the same to the Superintendent, and by his order deduct the value of the same from the wages due the attendant, or make such other entry upon his books as the Superintendent may direct.

9. It shall be his duty to devote his whole time to the institution and not absent himself from the premises except by special permission from the Superintendent.

10. It shall be the duty of the chief attendant to see that the moral treatment of patients and the conduct of attendants conform in all respects to these by-laws and the instructions of the Superintendent.

DRUGGIST AND BOOKKEEPER.

1. The druggist and Hospital Steward of the State's Prison, in addition to his duties there, shall perform the duties of druggist at the State Hospital for the Dangerous Insane, and in addition thereto shall do the bookkeeping for both departments respectively. He shall constantly reside in the Hospital for the State's Prison, and be absent only upon recommendation of the Superintendent, and shall

be paid $50.00 annually, which amount shall be deducted from his salary as druggist at the State's Prison.

2. Under the direction of the Superintendent, he shall prepare and put up the medicines prescribed, and make such records thereof as are required. He shall keep the apothecary room and room for medical stores in order, wait upon visitors, copy and direct letters, and perform such other services as may be required of him by the Superintendent.

3. He shall exercise extreme caution with regard to all poisonous preparations, and see that all such have cautionary label attached, and that the person to whom they are delivered has full knowledge of their nature. In any case where what appears like a dangerous or poisonous dose is prescribed, he shall not put up or give out the same until he has first called the attention of the Superintendent to the matter and received his instructions.

4. No bottles or cups shall be given out without having legible labels attached, giving the name of the patient, and, if necessary, the dose of the preparation.

5. He shall see that bottles and cups and all apparatus and instruments used in the wards or elsewhere are returned to the dispensary promptly and in good order; and shall prevent loss and waste by collecting and returning such articles as might become dispersed through the Hospital frequently.

ATTENDANTS.

1. The attendants shall treat the patients with uniform attention and respect, and greet them with friendly salutations, and exhibit such other marks of kindness and good will as evince interest and sympathy. They shall speak in a mild, persuasive tone of voice, and never address a patient coarsely or by a nickname.

2. On rising in the morning every attendant shall see that each patient confided to his or her care is washed and decently dressed. Attention shall be given to the person and dress of each patient during the day as often as required by disorder or any want of cleanliness.

3. An attendant must always be present at the meals, carve the food and distribute it to such as can not do it themselves, and see that each one has his or her proper supply, and takes it properly. Care shall be taken that no patient carries away a knife, fork, or other article from the table, and the knives and forks shall be counted after each meal to prevent any being lost.

4. No attendant shall ever apply any restraining apparatus to a patient, except by order of the Superintendent, or of a resident officer under his direction.

5. The patients are to be soothed and calmed when irritated, encouraged and cheered when melancholy and depressed. They shall never be pushed, collared or rudely handled.

6. When attendants receive insulting and abusive language, they must keep cool and forbear to recriminate or threaten. Violent hands shall never be laid upon patients under any provocation, and a blow shall never be returned, unless in the clearest case of necessary self-defence. Sufficient force to prevent injury to themselves or others shall always be applied gently. Authority must be maintained by kindness of manner and diginity of deportment.

7. Attendants shall never place in the hands of patients, or leave where they can obtain, any knife, razor, rope, cord, medicine, or any dangerous weapon or article, and shall see that they do not conceal any such article about their bed or person. Neither shall they deliver any writing or letter to or from a patient without permission of the Superintendent, nor retain in their possession any writing of a patient.

8. Attendants must not leave the institution nor remain absent except by express permission of proper authority. When away the conduct and conversation of patients must not be repeated. No company shall be admitted into the apartments occupied by the patients, except by permission of the Superintendent.

9. It shall be the duty of the attendants to keep the patients' rooms and halls perfectly clean and well ventilated; to have the beds aired and sunned and made in proper season; to keep all the doors of the rooms closed when the patients are in bed.

10. The attendants must never give up the keys of the passages, nor let anyone into the halls without permission.

11. Every patient must be in charge of some responsible individual at all times, unless permitted to be at large by the Superintendent.

12. No patient shall leave his or her ward without the consent of an officer, and no new patient without the order of the Superintendent.

13. All persons on duty at the Hospital must rise at the beginning of the morning bell, unless excused.

WATCHMAN.

1. The watchman of the State's Prison shall also perform the duties of watchman to the Hospital of Dangerous Insane. He should be careful to keep up the strictest vigilance during the night, never allowing himself to sleep while on duty, or to fail in any particular to discharge his trust with fidelity.

2. It shall be his duty to pass around the buildings at least once every hour in the night, besides strictly observing such special directions for the night as shall be given him by the Superintendent or other superior officer.

3. He shall notice all unusual sounds in the patients' rooms, and give immediate information of the same to the proper attendant.

4. He shall report to the Superintendent all irregularities or violation of the rules of the institution which may come under his notice, and enter in his watch-book any remarks he may have to make upon the occurrences of the night.

OTHER EMPLOYES.

All other employes about the institution whose duties have not been specifically defined in the foregoing by-laws, shall strictly conform to their general spirit, and shall always be selected with reference to their general fitness, and not only for the purpose for which they have been specifically employed, but also for the companionship and oversight of the patients while at work out of the wards, and in their walks over the Hospital grounds.

RULES AND REGULATIONS.

1. The Steward and chief attendant shall turn in to the Superintendent daily written reports of the different departments, and matters of general interest to the institution. Matters of urgency must be brought to the attention of the Superintendent at any time.

2. Visitors will not be entertained by the Hospital. Frequent visits to officers, employes or patients will not be allowed. Visiting the wards will be regulated by direction of the Superintendent. Persons wishing to visit particular patients must obtain permission of the Superintendent. None but relatives or near friends of patients will be allowed to see them, unless a request in writing from their nearest relatives is presented.

3. None but those entrusted with ward keys shall go into the wards without special permission from the Superintendent. No person must be invited to the Steward's table without special permission of the Superintendent.

4. No smoking shall be allowed in or about the institution building. Every person is positively forbidden to bring intoxicating liquors upon the premises. The use of intoxicating liquors by employes of the Hospital is strictly forbidden. No person may furnish patients tobacco, except by permission of the Superintendent.

5. The work of the patients being a part of the treatment and directed by the Superintendent, must be for the institution; they must not be allowed to work for anyone else, nor for each other, except by special permission in each case from the Superintendent. All orders for purchases for the patients from private funds in the hands of the Steward must be in writing and be approved by the Superintendent.

6. It shall be the duty of all the officers to report to the Superintendent all disobedience of the rules and regulations, and all failures in a strict performance of duty on the part of the employes that may come under their notice, or be brought to their attention. And all persons employed in any capacity in the institution are required to report to the Superintendent any mistreatment of patients by anyone that may come under their notice.

7. Employes will give timely notice to the proper officer when they wish to be relieved from duty on account of sickness or other cause, otherwise they are expected to perform their duty punctually.

8. The institution contracts for the entire time of all in its employ, and no private business must take the time and attention which is due to the Hospital. No person engaged in the service of the institution will be allowed to receive presents or gratuities from patients or their friends. Business transactions with patients are forbidden, either buying or selling.

9. All visitors to the Hospital are to be treated with the greatest respect and civility. Visitors are not allowed on Saturdays or Sundays.

10. All employes are forbidden to be absent from the institution except by special permission from the Superintendent.

11. All employes will be furnished with a copy of these by-laws, and ignorance of the rules will not be accepted as an excuse for their violation.

12. Conversation between the sexes in the corridors, at the entrances to the wards, in the laundry, or in other unsuitable places, is strictly forbidden. The female attendants will not be allowed in the wards or rooms of the male attendants under any circumstances.

13. All employes of the institution are required to give fifteen days' notice before leaving, or forfeit their wages for that length of time. Payments will be due on the 15th of each month for services up to the first of the same month.

14. For disobedience of the by-laws, regulations or verbal orders of officers, employes will be dismissed at the discretion of the Superintendent.

No change will be made in these by-laws, except by a two-thirds vote of the Directors present at any regular meeting of the Board.

When I assumed the duties of Superintendent, April 15, 1901, the total population of the Hospital was thirty-three (33), as shown in the table below. Nearly all these patients had been inmates of one of the three State hospitals, or of the State's Prison. These sources were soon relieved, however, so that a large majority of those committed since April

15, 1901, have been committed directly by the Courts. The general hospitals for the insane must have been greatly relieved by having the responsibility of this class shifted, thus being able to devote themselves more particularly to true hospital work. To be sure, they transferred to us only those patients charged with serious crimes, but even the transfer of these few must have raised an enormous burden of responsibility. Taking all together, our early population was a most discouraging lot. Those admitted from the State hospitals had committed grave crimes; from the State's Prison came insane convicts, most of who were serving long sentences; or, having completed their terms of imprisonment, had not received their discharge because of insanity. The Courts committed to us cases which had previously been compelled to undergo confinement in the State's Prison along with convicts. Practically all were hopelessly deranged, as shown by the fact that no patient admitted previously to 1900 has recovered. Many were physically bankrupt, either by reason of long confinement or congenital or constitutional defects. A large number were victims of chronic organic disease. The soil was rich for terminal infections, which fact accounts for the percentage of fatal events.

Causes of Death.	Men.	Women.	Total.
General Paresis	2	1	3
Cardiac Lesions	1	1	2
Tuberculosis	3		3
Chronic Diarrhœa (Cancer Cæcum)	1		1
Pneumonia (probably Tuberculosis)	1		1
Syphilis of Liver (Amyloid)	1		1
	9	2	11

Those admitted more recently have been for the most part committed directly by the Courts from the rural districts, and belonged to the farming or laboring class. They promise far

better results, as evidenced by the fact that four of the patients admitted since 1900 are now practically well and of sound mind, viz., George McNeil, Thomas P. Manness, Lee Hill and Thomas Suggs.

I should now strongly urge an amendment to the law, providing for the discharge of such patients, not only for reasons of justice and right, but also to relieve the State of the burden of maintaining thoroughly safe persons. The Courts, too, have committed insane persons with a definite sentence for a term of years. This seems to me to be illogical and unwise, since it is impossible for a jury to prognosticate a recovery, and unjust to sentence an insane person as a punishment for a crime. Furthermore, at the expiration of the time covered by the sentence, no matter what the mental condition of the patient may be, we have no right, according to the present laws, to retain him. Such a person, if still insane, would obviously be a menace to the community if set at large. The Courts should have the power, in their discretion, it seems to me, in the first place, to commit unconvicted criminal insane persons—*i. e.,* persons charged with crimes who are found to be deranged—either to the State hospitals or to the Hospital for the Dangerous Insane. Provisions should be made, on the other hand, for the transfer of any improper criminal case from the State hospitals.

The modern tendency in the treatment of the insane is to create for the general class of insane persons institutions which shall be hospitals in fact as well as in name, the idea being to do away with the custodial features, to have the "open door" system, freedom from window guards, and full liberty of premises; to accord to the individual every possible liberty; in fact, to establish the hospital idea. It manifestly retards the growth and execution to have to provide custody for a few inmates of the hospital who may be possessed of dangerous tendencies, inclined to escape and to become a menace to the community, and a source of worry and anx-

iety to the hospital authorities. On the other hand, I am convinced that the State's Prison building is not the place for the custody, care and treatment of any class of insane persons. I am free to confess that the treatment given to patients in the institution has not been entirely satisfactory to me. A busy physician can not afford, for the slight remuneration received, to attend to more than the medical needs of patients at his daily rounds. In spite of these facts, we have struggled to get the institution into good shape, and with a degree of success, we believe. Certainly from a financial view point, we have succeeded; for the individual cost of maintenance has been an exceedingly low figure. This seems the best and only argument in favor of the State's Prison enclosure as a location for the Hospital.

As soon as practicable, I would vigorously recommend the creation of a large, centrally and rurally located institution, where all the dangerous insane of the State may be cared for, the incurable cases from the State hospitals (*vide supra*) being transferred to it. The sending of persons to such an institution would not preclude the employment of the best agencies for their care and recovery, but of course they could not be accorded the liberty which is given to the ordinary insane. The conclusions of the International Congress, recently held abroad, according to the New York press reports, were to the effect that the State would provide for the dangerous insane, and that the ordinary insane should be cared for in homes or hospitals, the object, I presume, being to afford the best protection to the community and at the same time to facilitate recovery.

EMPLOYMENT OF PATIENTS.

Among the disadvantages of the present location is the want of occupation for the patients. Except for a small garden in the Prison grounds, and odd jobs such as carrying wood and water, they are entirely without employment. The

female patients assist with the sewing. A farm and grounds and outdoor departments would enable us to employ a large number.

COST OF MAINTENANCE.

The monthly per capita cost of maintenance was $10. The total monthly pay-roll amounts to $99.18. The cost of fuel, light and heat was small. It is probable that the appropriation ($5,000) made for the last year will be sufficient to meet the expenses of the present. For the year beginning December 1, 1902, we would ask for $5,000.

REQUIREMENTS.

We would ask for a sum sufficient to tear out the old wooden stairways and replace them with iron ones. In order to accomplish this, we ask for $1,000.

Repairs are badly needed in the water closets. Without these, we can not keep the closets cleanly, or prevent foul gases from returning from the closets. For this purpose we would ask $1,000.

The temporary partition separating the female white and colored patients is of thin board. A good solid wall should be built immediately. This will require $500.

The heating plant is entirely inadequate. The pipes are too small and the amount of radiation is altogether insufficient. Nothing short of a new system will insure sufficient heat to make the wards comfortable in the coldest weather. This is the opinion of experts on this subject. This will require $1,000, making a total of $3,500 necessary to do the work recommended by the Advisory Board.

The following tables show the source of all inmates April 15, 1901, and all admitted since that time:

MOVEMENT OF PATIENTS.

	Men.	Women.	Total.
Number of Patients April 15, 1901	27	6	33
Admitted between April 15, 1901, and December 31	17	5	22
Total population	44	11	55
Discharged since April 15, 1901 (died 12; cured 2)	14	2	14
Remaining December 31, 1901	30	9	41

Total received	44	11	55

At the beginning of my service, April 15, 1901, there were eight (8) patients under physical restraint; at present there are two. The Hospital has been entirely free from accidents and contagious diseases of all kinds.

We acknowledge with pleasure two annual visits from the Advisory Committee; two visits from members of the State Board of Health; Dr. T. O. Powell, Superintendent of the State Hospital, Milledgeville, Georgia, accompanied by two members of the Executive Committee; and several other visits from time to time from friends of the institution.

The foregoing embodies the principal events since my election, April 15, 1901, to the present time; and in conclusion it becomes my pleasing duty to acknowledge, with gratitude, the assurance of confidence, encouragement and support which you have given me.

I desire also to express my appreciation to the clerk of the institution for the very valuable aid he has rendered me in the performance of my duties. I am,

Very respectfully,

JAMES R. ROGERS,
Superintendent.
